

ASSOCIATION OF ELECTRICAL
ENGINEERING DEPARTMENT

“ELECTRICAL ENGINEERING STUDENT ASSOCIATION”

DEPARTMENT OF ELECTRICAL ENGINEERING

INTRODUCTION

The main aim of the Electrical Engineering Association is to develop enterprising professionals who have an innovative disposition, the confidence and abilities to assume leadership roles in technology, business and the community. The program is designed to give the skills essential for graduate engineers to become immediately employable in the global competitive environment. In order to achieve this aim, the major areas offered by the department are power system, machine & control system. Our goal is to organize social and professional activities which strengthen and enrich the community within the department, and to help publicize various research activities within the department. We organize social events, host talks by guest speakers and students, and help communicate with the department and the students.

Aims and Objectives :-

- 1) To further the knowledge and awareness in the field of Electrical Engineering through meetings, discussions, and quizzes .
- 2) To develop leadership and initiative, responsibility amongst the members of the Association
